FRIDAY JULY 20, 1893

THE HOSTILES.

Indians cannot well be punished as individuals until in other respects they are treated as individuals. People who demand the punishment of General Crook's captives, on the ground that the band collectively has committed several murders, might experience a little difficulty in finding the law for that mode of procedure. The San Francisco Call says: It is rather necessary to prove that an individual Indian had a hand in such murders before we proceed to hang him. If these captives are placed under Gen. Crook's control he will have an opportunity to teach them that they will be held to account as individuals. Punishing a tribe, or a band, because one of their number has committed a crime, relieves the individual Indians of a proper sense of personal responsibility. He is punished just as much for some other Indian's crime as if he had committed the crime himself. The first step toward creating in the Indians a sense of individuality is to make him sole owner of something. Setting apart a few hundred acres for a lot of Indians only confirms their tribal habits. Each Indian, so far as practicable, should have his own ground and be protected in the enjoyment of its products. If he works and raises crops, they should be for his individual benefit. If he murders or steals he should be sought out and punished, but his tribe should not be held responsible unless they harbor or otherwise protect him.

Chandler has ordered home by telegraph, from the Asiatic Squadron, Lieutenant Commander Hitchcock, Pay Inspector Cochran and Master Hothelkiss—it is said, upon the report of Admiral Crosby charging these men with intemperate habits. Says the Omaha Bee: "It is alleged that the report makes a similar charge against Rear Admiral Clitz, and Commander Mullen, who was in command of the Ashuelot, when she foundered. Mullen has already been dismissed by court-martial, and Engineer Entwistle has been suspended. This is evidently a grave matter. It is said that the rumors of drunkenness among the officers of that fleet, induced Mr. Chandler to demand of Admiral Crosby an investigation and detailed report, with the above melancholy results."

Judge Terry is represented as favoring the setting aside of the Democratic State Central Committee in the matter of investigating the acts of the Railroad Commission, and to make a demand upon the Governor, by means of public meetings, for an extra session of the Legislature. Says the Grass Valley Union: "It is possible that Judge Terry is becoming restive under a party organization where he cannot have his individual way. It has been about three years and a half since he last kicked out of the traces."

EASTERN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

TELEGRAPHIC TROUBLES.

New Operators Coming to the Rescue—The Company confident of Being Able to Handle the Business—The Strikers' Confidence—Press Reports Will not be Interrupted.

CHICAGO, July 20. A secret meeting of the telegraphers was held at Uhlrich's Hall last night. There was a large attendance, and the enthusiasm was unbounded. A committee, which was appointed to supply a report of the Brotherhood's proceedings for the newspapers, stated that the strike was ordered by the New York committee Wednesday, and was directed to take place at 12 o'clock a. m. Washington time, or at 11:05, Chicago time.

They pronounced the allegation that the report of General Grant's death was started by the Brotherhood as untrue. The Brotherhood, they said, was receiving innumerable assurances of sympathy and, if necessary, of financial aid, from various quarters. The men felt more determined in their course, seeing they were supported by the Knights of Labor. It was known, they said, that the Western Union Company was sending business away by train instead of by wire; that but few operators, except the chiefs, who were in the office now were able to touch the keys. The boys and young ladies employed in the check department were offered positions as operators, which they declined; that many of the chairs were occupied by "wooden men," and that when the men left the office in the morning only six operators remained.

Encouraging reports for the Brotherhood were stated to have been received from offices that had not entirely suspended business. The committee complained that the company contended itself by saying that the demands of the men were preposterous, but failed to show that they were so. The announcement that the Board of Trade and others had given them assurance of support, was loudly cheered. In conclusion, the committee said, that the Brotherhood only asked that their case be fairly presented, and that the public should not accept, implicitly, the reports adverse to them, circulated by the outside.

The officers of the Western Union Telegraph Company were, of course, very busy all day after the strike. They pitched into work as if they meant business, and their energy lent renewed vigor to the operators who received, and gave the new recruits confidence. Of the 150 men, women and boys, employed in the Western Union building, yesterday, there was not one who failed to appreciate the situation, and consequently made every effort to perform the vast amount of work that had accumulated. One of the head officers said that the strike was already whipped. "It was," he said, "apparent from the start, to those who had seen strikes before, that no officers, office men, chief operators or chiefs, were in the strike. It was apparent from the start that we would win, because we knew that a large proportion of the operators wouldn't leave their instruments; and we were about right in the calculations we made. These people are enthusiastic, too, and will stay with us, no matter what influence is brought to bear upon them. In all the leading cities there is at least one half a force at work, and new recruits are coming all the time. In small cities and towns there is practically no difficulty. In many of the smaller cities no one is left at the offices at all. In this list appear Denver, Pueblo, Lafayette and Columbus. With the smaller cities and towns stated we fear no difficulty, because there is an unlimited number of operators in the country, whose services we are already negotiating for. The striking element in the larger cities is composed principally of single men, who have little to lose. Tomorrow we expect Chicago to be flooded with operators, but we propose only to employ good men. The wires are all right and the press will be supplied with the usual matter. Everything considered, we regard the present strike as very weak as compared with that of 1870."

A BETTER FEELING.

CHICAGO, July 20. Superintendent Clowry reports that the business of the Chicago office of the Western Union Company is moving along without any perceptible friction, and that while there is not the usual rapid service, nevertheless all vital commercial business and press dispatches are being sent over the wires without marked delay. On change this morning there was a disinclination to engage in trading, and but little business was transacted during the early hours, owing to the meager nature of their advice. The Western Union put on a trained force early in the day, and there was a perceptible improvement immediately thereafter. The strikers have thus far displayed firmness in their determination to stand out for a considerable period, and express the belief that the company will have to accede to their terms.

THREE CALIFORNIA SHIPS IN BAD LUCK.

NEW YORK, July 19. At about 10:30 o'clock this morning a spark from an engine fell into a pile of jute which had just been landed on Harbeck's dock from the ship Lawrence Delap, from Calcutta. The dock was filled with a heap of jute and coffee. In a few minutes the entire dock was in a blaze. The Delap was the first vessel to catch fire, and all her rigging was burned before she could be towed out. Next to her, on the south side of the dock, was the ship Perseverance, also from Calcutta, which arrived yesterday, and on the north side lay the ship Colonel Adams, from Calcutta. To both of these vessels the flames communicated, and the crews jumped overboard for safety. When the firemen reached the dock the supports of the roof gave way, burying a dozen firemen and dock hands in the ruins. A rescuing party immediately formed, and dragged the men out from the blazing rafters, none dead, but all more or less burned and bruised. Just then the chief of the battalion gave orders to clear the dock, as the ship Lawrence Delap, which was now on fire above and below, contained 4,500 pounds of saltpetre. A rush was made by the crowd to the further end of the dock. While this was going on a hoisting derrick, from which the supports had burned, fell over on the wharf with a crash, knocking two dock men overboard. Custom-house Inspector Harradin, in attempting to escape from the ship Colonel Adams, was severely burned about the face and hands. The ships Perseverance and Colonel Adams had by this time been towed far out into the stream, and tugs poured streams into their holds. The efforts of the firemen were mainly directed to extinguishing the flames on board the Lawrence Delap, on which it was momentarily expected an explosion would take place.

LATER.—THE DISTRICT OFFICE AT HARBECK'S DOCKS STATED THAT THE CAPTAIN OF THE LAWRENCE DELAP, WITH HIS WIFE AND THREE CHILDREN, IS REPORTED DROWNED.

Two deck hands are also reported drowned, and one sailor killed by the falling of timbers. The loss is now estimated to be between \$2,000,000 and \$3,000,000.

Three men were seen to throw the trunk of Captain Crane of the ship Lawrence Delap overboard, containing \$2,000 and \$4,000 worth of jewelry, belonging to his wife. It was picked up by river thieves, who rifled it. The wife and child of Captain Crane were saved. The ship was burned to the water's edge.

AN EXCITING TREAT.

CHICAGO, July 19. The fifth day at the Chicago Driving Park Summer Trotting Meeting furnished rare sport. The track was unusually fast and the contests close and exciting, and the average time made was never before equaled for any one day. The event of the day was the meeting between the New York gelding, Majolica, and the great Wisconsin stallion, Phalot. The race was for a purse of \$2,500, for the three-minute class. Majolica was a strong favorite against the field on the strength of having trotted in 2:17 in his first race. Majolica won the first heat without urging at any point. During the scoring for the second heat, the judge gave the word "go," and by a mistake sounded the recall bell at the same time; all came back except Majolica, who was jogged around and given the heat, under the rule that the others were allowed a start. The third heat was trotted, and Majolica at once went way past, and was seven lengths ahead of Phalot at the half-mile post; then Phalot began trotting very fast, overhauled the leader at the three-quarter post, drove him to a break, and won the heat in 2:16 3/4, making a record unsurpassed, except by Smuggler, and equaled only by Jerome Eddy.

CHARGES AND COUNTER CHARGES.

NORFOLK, July 18. The Naval Court of Inquiry to examine into the difficulty between Commodore Mayo, Commandant of the Navy Yard, and Commander McGleny, has assembled. The charges preferred by the Commandant against McGleny were read, accusing that officer and his clerk with aiding ex-Congressman Desandorf in making a charge to the Navy Department against Mayo; also that McGleny in asking for leave of absence for J. N. Cole, had represented him as a clerk, when he occupied the position of writer, thereby trying to obtain additional privileges for Cole to which he was not entitled. It is further charged that McGleny refused to deliver certain papers when ordered by the Commandant to do so. Commander McGleny charges Mayo with arresting and confining him to his quarters without cause.

SAN FRANCISCO NEWS.

The Striking Telegraphers—A Careless Engineer—Arrested—Clashed to Death by Policemen—Report of the U. S. Mint.

SAN FRANCISCO, July 20. Twenty-eight of the striking telegraphers of this city and Sacramento met here last night. One speaker said: "We were not prepared out here for a strike, but stayed orders and propose to stick. If our Eastern brothers hold out with as much nerve and confidence as we a victory will be gained." The sentiment among individual operators is hopeful. They smile grimly at the idea of students from business colleges being able to handle the wires after a few hours experience. Regular business is being transacted here. Two through wires are used direct to Omaha. Some inconvenience in sending messages to Oregon and Washington Territory is encountered. The difficulty will be arranged tomorrow.

The commission having in charge the investigation of the steamer Pilot disaster report that the calamity was due to the negligence of engineer Crawford, who allowed the boiler to become overheated for the want of sufficient water. Crawford has been suspended for five years.

A report is received that the tramp, who shot Mrs. Kittle, yesterday, at San Rafael, has been captured.

An autopsy on John Shanahan, who died yesterday at the City Hospital, showed that hemorrhage of the brain was the cause of his death. The coroner's officials have no doubt that Shanahan was fatally clubbed by officers Whittle, Foley and White, while being arrested as a drunk. During the fiscal year of 1893, 5,300,000 ounces of gold, valued at \$90,000,000, and 25,000,000 ounces of silver, valued at \$28,000,000, was operated upon at the U. S. Mint in this city. The losses were \$3,000. The coinage for the year was gold, \$28,000,000; silver, \$7,350,000.

THE FEELING IN SACRAMENTO.

SACRAMENTO, July 19. To-night, headed by the brass band, the striking operators paraded the streets, followed by a large crowd of sympathizers. Business men are in union with the strike. They think the Western Union has gone far enough, and have looked upon it as a great monopoly, only waiting the present opportunity to be brought to terms.

FOREIGN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

THE SHOOTING AT WIMBLEDON.

WIMBLEDON, July 20. The following is the score at 200 yards: American—Smith 29, Scott 29, Joiner 29, Brown 30, S. Scott 29, Dolan 31, Pollard 30, Cass 28, Herman 29, Bull 28, Paulding 31, Van Housen 29. Total at 200 yards, 232. British team—Young 30, Pearce 27, Goldsmith 31, Gibbs 28, McVittin 29, Bates 29, Goddard 27, Lowe 28, Parry 28, Dods 28, Humphreys 28, Wattleworth 31. Total at 200 yards, 340. The middle squad of the Americans shot with Remington rifles; others used Brown rifles. The Americans say their firing was slow. Many of the British volunteers noticed that a number of Americans shot under the trigger guard. The firing will be resumed at 2:30 p. m. The two teams finished firing 200 yards within a few seconds of each other. Although the Americans were ahead they expressed the opinion that they ought to have done better. The English account for their inferior scores by saying that they are not accustomed to firing at 200 yards, standing. The total score of the English at 500 yards was 577. Americans, 368.

SUCCESSFUL DIPLOMACY—QUARANTINE REGULATIONS.

LONDON, July 20. The Times' correspondent at Paris says there is every appearance that the difference between France and England will be easily settled. The Standard's correspondent at Berlin asserts that the English and French Cabinets have arrived at an amicable understanding concerning the Montevideo trouble. The European Powers are increasing the quarantine regulations against Persian goods and vessels from Egypt, owing to the prevalence of the cholera.

A COWARD DONE FOR.

CANTON, O., July 20. George McMullan, the wife murderer, was hanged here to-day. On the scaffold he begged his friends to pray for him, his murdered wife and children. He had an affecting interview with his four little children about an hour before his execution.

A CHICAGO MERCHANT'S EXPERIENCE.

After I had become almost skin and bone, with neither strength, appetite nor ambition left and the doctors couldn't help me, two bottles of Parker's Ginger Tonic cured me completely. M. B. Westcott, Lamp N'ry, Chicago.

Declared Insane.

A Eureka dispatch says that Mrs. Emerick, wife of William Emerick, a prominent merchant of that place, was turned over to the authorities Thursday as insane. Mrs. Emerick—formerly Miss Lizzie Roach—formerly resided on the Comstock, where she is well known.

Three-Toed "Fete."

The Carson Index is responsible for the following: "The other day at the prison, scientist Davidson made the discovery of a track left there by an animal with three toes, each toe-track about two inches in diameter. Nothing like it is known to the scientific world."

JOTTINGS.

The *Index* says Carson is as dull as the butt end of a sequoia gigantea.

A car-load of horses, shipped from Wadsworth, went west last evening.

Ladies hand baskets at Nasby's. Thermometer at 7, 9, 11, 1, 3—68, 75, 80, 84, 84.

Three nail-heads on Commercial Row, between Virginia and Sierra Streets, are becoming an unbearable nuisance; scarcely a day passes that some lady or child does not ruin a shoe on them.

Knowles & Bainbridge, dealers in stoves, tin, crockery, glass and hardware, are making a complete success in this community. Their patterns of stoves and ranges are of the improved and latest patterns.

The genteel appearance and behavior of the patrons of Chase & Thyes, is unmistakable evidence that they allow no ladies or dead-end fall roughs around their place. Their place is always clean, quiet and cool.

J. J. Becker's Fredericksburg beer will come nearer standing off hot weather than any drink in town. His lunches are more filling than an ordinary four bit meal, and when you have concluded your mid-day repast you are sure you have not been poisoned with flies.

The runaway from the store of A. Lindley & Co. last evening did not in any way interfere with the business for old "Whitely" had to work long enough in the evening to make up for his little frolic. All kinds of the best groceries in this or any other market are being delivered by the ton.

Dress goods of the latest shades, Irish linens, hosiery, underwear, and in fact, everything to be found in any first-class dry-goods store, can be found at Levy & Bro.'s on Virginia street. Any customer calling for anything in their line which cannot be found in their store, will be supplied without cost, as soon as the article can be brought from below.

KANEEN'S SALARY.

Storey County's Newly-Appointed Commissioner Comes Under the New Law.

Under an Act passed by the last Legislature, and approved March 1, 1888, Mr. Kaneen, the newly-appointed County Commissioner for Storey county, can draw only \$75 per month as compensation for his official services—just one-half the amount received by his two colleagues, Messrs. Canavan and Werin. The language of the law is very explicit, and does not seem to leave any loop-hole for evasion, should any effort in that direction be made, which is not likely. The sections bearing upon this point read as follows:

Section 2. No County Commissioner hereafter elected, or appointed, shall receive as compensation for his services as such Commissioner an amount to exceed nine hundred dollars (\$900) per annum.

Section 3. This act shall not be so construed as to limit the number or affect the compensation of County Commissioners now holding office by virtue of election or appointment.

Trouble in the Reno Office.

George Coffin, the W. U. telegraph messenger at this place, has struck. His bill of grievances has been forwarded to the home office. Matters at this station have been feverish and unsettled for several weeks back. The trouble commenced when George sent in his resignation for a saddle-horse, and was denied the privilege of such an expensive luxury, and was informed by the directors that the walking was not had in Reno. The Brotherhood will undoubtedly stand in, and George will either get his horse and ride, or again be refused and walk—most likely the latter.

Scientists at Work.

The Carson *Index* says: Professors Blake, Gibbs and Davidson worked hard all day yesterday taking drawings of the prison tracks. The drawings, which were shown this evening, are very elaborate. Plaster casts of what are supposed to be the man tracks and the machine tracks have been ordered. The cast of the former will be in length, 46 feet; that of the latter, 40. Prof. Gibbs will continue his investigations for two or three days.

A Big-Headed Parson.

It is related of a noted Eureka preacher, says the *Leader*, that as he was nearing San Francisco the other day in a sleeping car, he gawped in such a way as to cause a duplication of the process in a mirror between the windows. A young married lady four sections away, at the same moment, clutched her husband's arm and remarked, "George, there's another of those horrible snowheads."

The Ode to Virginia. There seems to be a determined effort to make crime respectable. Here, the Richmond editor who recently shot editor Elam in the thigh, made his first appearance in his office on Friday. He was welcomed by a large crowd of friends. In fact, his passage through the street was in the nature of a grand procession.

FIRES AT VIRGINIA.

Twenty-Five Buildings Mostly Business Houses, Destroyed.

This morning's *Enterprise* contains the following: Last night, a few minutes before 12 o'clock, a fire broke out in the rear of the Colombo restaurant, on the west side of South C street, Titus Jepson proprietor, and soon caught in adjoining wooden buildings.

When the cry of fire was raised, flames were already towering above the roofs, and a great volume of smoke was rolling skyward. The alarm whistles then sounded the alarm, and the firemen were soon on the ground. As the fire started but a short distance from the Corporation House, the wonder of everybody is that it should have got under such headway without the firemen discovering it.

The flames rapidly extended in all directions, everything being dry as tinder, and the heat from the burning buildings intense. After the flames got to work there was trouble with the hose, which burst several times. For a time the fire seemed to have things all its own way, in spite of the water that was poured upon it, and rapidly ate its way northward among the light wooden buildings.

The Corporation House itself, standing on the west side of C street on a high bank, was on fire several times, and at one time there were two or three buildings on fire on the east side of C street. Just then it looked as if the whole central part of the town would be swept.

It is impossible at this late hour to get a list of the buildings burned, but a clean sweep was made from Flowery street north, to the brick building mentioned above. McGinn's store was destroyed, and all the large brick building owned by Kleitner. This building is covered with a fire-proof roof, and to the west, or in the rear, is a vacant lot. Here a desperate fight was made, and the firemen soon began to gain ground, though at one time two or three wooden buildings north of the brick were on fire.

Finally, in going north, the flames reached other stores and shops in the vicinity.

Had there been any wind blowing, half the town must have been destroyed. What houses there were seemed to come from the northward, away from the fire, yet the fire moved against it to the north.

In the confusion and fright of the people not much property was saved from the buildings burned. The loss must be quite heavy, but at present it would be useless to make guesses about losses or insurance.

THE SIERRA MADRE.

A Finely Watered and Timbered Country, and Rich in Minerals.

A gentleman who has been to the Sierra Madre, writes to the *Enterprise* that a trip through that country at this season of the year is a parade through a succession of table lands teeming with flowers of every hue, and forests of pine, inhaling fragrance at every pore. The Apaches live on the outskirts of the Sierra Madre. Two tribes, called Tarumaris and Triplwans, inhabit the central portion. These Indians are at peace with the Mexicans, but at war with the Apaches. The country abounds in pine and oak and streams of pure water, being heavily timbered and watered. In the center one can ride for miles over table lands without meeting with a single obstruction. Rich ore is to be found everywhere, and this man found native silver in abundance, and now that the Apaches have been driven out, he longs to return there with a party of prospectors.

Mrs. Holyoke's Lecture.

A lady, prominently connected with the W. C. T. U. of Reno, sends in the following for publication: Mrs. Holyoke's address, delivered at the Baptist church Thursday evening, was attended by a most appreciative audience. Her subject, "Shall We Prohibit," handled in a masterly manner. Before commencing her address she recited one of Will Carleton's temperance poems, and, presiding at the organ, sang a temperance song. She is a fine vocalist, which is an attractive feature of an evening's entertainment, and her lectures are replete with instruction. It is to be regretted that the people of Reno do not take more interest in a subject of such vital importance to themselves as the temperance question.

A Mining Prospect.

The *Elko Independent* learns that Jasper Hurrell, who recently sold his stock ranch and herd in that country, has purchased an interest in some mining property at Sprucemont, and that work upon those mines will now be vigorously prosecuted. The mines referred to have been worked to a limited extent by Mr. Scherff, formerly proprietor of the Wells Hotel, with very satisfactory results, and now that ample means are at command, there is every reason to expect good reports from the enterprise very shortly.

Not Sold Out.

A GAZETTE reporter saw J. A. Gaudet, at Winnemucca yesterday, and he says Pete French has not sold out. The report originated in Red Bluff, but there is nothing in it.

PERSONALS.

Mrs. A. T. Rice was taken quite sick this morning.

Bob Morrow of San Francisco was a passenger for the Comstock this morning.

Mrs. Lucius did not come with her husband, but will be along in a month or two.

J. W. Orudoff came in from Eureka this morning, en route to Virginia, his old home.

Mr. Blakeslee of the Humboldt House, C. E. R. E. was a passenger below this morning.

Mrs. John C. Hampton and Miss Ida Morgan of Virginia are here the guests of Miss Dixon.

The roaring *Ghost of Loyalty* came to town yesterday. His son still lies in a helpless condition.

The Rev. Mr. Ewing of Quincy, California came in on last night's stage and left this morning for Carson.

J. N. Wallace came down from Camp 23 to-day to have his new residence put in order for the reception of his family.

Captain John Kelly of Lady Bryan remembrance, came from the Bay this morning on his way to the Comstock.

R. S. Osborne and wife went out over the N. & O. this morning on a visit to James Evans family, near Oneida.

Alvaro Evans left this morning for the Genoa Hot Springs, to see if he can't steam the rheumatism out of his chest and arms.

Mrs. Mapes and children, and Mrs. Barnes of the Golden Eagle Hotel, went out to-day to visit Mrs. Howard and daughter.

B. F. Naphthali, the San Francisco lawyer with a reputation more notorious than distinguished, came from California this morning.

Hon. C. S. Varian and family returned yesterday from a short visit to Independence Lake. He says the fish are not biting at all now.

General H. Day of the United States Army, who has been visiting his son, "He Day," in Carson, went east on this morning's express.

L. J. Dunn and family of the Eagle mine, in Humboldt county, passed west yesterday morning for a two weeks' recreation on the sea shore.

Mrs. Adolph Jacobs and family of Carson were passengers from the Bay this morning, where they have been visiting friends for the past two months.

Uncle John Snow, who succeeded Linn and preceded Stoddard as commissary at the State Prison, came from California and went up to Virginia this morning.

Professor W. P. Blake of Connecticut, who spent a few days at the State Prison examining some of Charles Stoddard's tracks, was at the Depot last night, and went east this morning.

Ex-Senator J. W. Small (Big Jim) of Douglas county, passed below this morning, where he has resided for the last two years, his brother conducting the old homestead in Lake Valley. The old man is not quite as fleshy as formerly but looks to be good for 20 years yet.

Governor F. A. Tritle, wife and three children, of Arizona, were passengers on the east-bound train this morning, bound for the Denver Exposition. The Governor appears to be enjoying life, and, with the exception of being a little more gray, does not look much older than when a member of the State Senate in 1889. He will pay the Comstock a visit on his return in August.

Create a healthy appetite, prevent malaria diseases, by using Brown's Iron Bitters.

A DISTRESSING ACCIDENT.

A Young Man Carelessly Swallows a Set of False Teeth.

A singular and distressing accident occurred last evening about 10 o'clock, which from present indications will prove fatal. A young man, well known in Reno, was out for a walk with a young lady, also well known here, and at Carson, and on arriving at the home of the lady, a good-night kiss was carelessly indulged in, and through some miscalculation the young man swallowed the lady's false teeth—four in number. It was agreed between the unfortunate young couple to keep it a secret, but the pain was so intense that the young gentleman was obliged to summon a physician, and in that way the secret leaked out. The attending physician says unless the patient gets relief by to-morrow noon, the accident is almost sure to prove fatal. The names of the parties are withheld out of respect to their feelings. They are of the highest respectability.

A Runaway.

Last evening about 7 o'clock, the horse attached to Lindley & Co.'s delivery wagon in front of the store, seeming to think it had done enough for one day, struck out at a pretty lively gallop for his stable, on the other side of the river. The usual amount of swishing of tails, hollering and throwing tin cans was indulged in by those who know how to stop a runaway horse, but with no other effect than to accelerate his speed. He was finally stopped about half a mile below the bridge, without having done any other damage than springing an axle-tree.

Bad News.

J. Mulmonee, stage agent for Meylert and Hughes, at this place, has just received the news of the death of his mother, in Iowa.

DETERMINED TO QUIT.

An Old Man becomes Discouraged and Takes His Own Life.

Yesterday forenoon at the Arlington House, in Carson, a man who went by the pseudonym of "French Dick," committed suicide by shooting himself in the head.

The *Index* says he had been employed as cook, but was discharged several days ago for incompetency. A day or two since he was inquiring for a pistol and complained of great pain in the back of his head. He was a man of good frame, but well advanced in years. He was discovered dead on his bed Thursday afternoon by one of the hotel employees, and a Coroner's jury speedily summoned, who found that the death resulted from suicide. He had evidently placed the muzzle of the pistol in his mouth and fired the fatal shot with his own hand.

Notice.

From and after Monday, July 23, we will close our places of business at 8 o'clock P. M.

Blooded Sheep.

On last evening's west-bound train were 2 cars, (134 head) of full-blooded Spanish Merino sheep en route to Australia. They were owned by W. G. Markham, and were raised in Vermont, New York and Michigan.

The Peanuts on a Strike.

The Brotherhood of Telegraphers' strike has raised hob with the Reno peanut line. The operators (?) are all up, keys wide open and lines crossed in several places. Secretary Jamison says, however, that commerce will not be interrupted if the stockholders pay their assessments and fines promptly.

"Circumlocution" in the War Department.

D. E. Osborne of Grass Valley, Cal., who in the Mexican war served on a ship that captured one of the enemy's boats, has just received from the United States Government \$5, which was his share of the prize money due on the transaction.

In fevers, malaria, biliousness, heartburn, etc., nothing is so beneficial as Brown's Iron Bitters.
